D.O. No. T-2015/12/2019 NCD-II
Date: 31st May, 2019

Dear Colleague,

Screening for common cancers is an important part of Ayushman Bharat-CPHC, population based screening under the National Health Mission and of opportunistic screening under National Programme for Prevention and Control of Cancer, Diabetes, Cardiovascular Diseases and Stroke (NPCDCS). National Institute of Cancer Prevention and Research (NICPR), an institution of the Indian Council of Medical Research, has developed a training module with the help of experts for screening and early detection of Cervical, Oral and Breast cancers for Medical Officers, which has online and onsite training components. This is a 14-week online course, followed by 3 day in person workshop at NICPR, NOIDA. NICPR can offer training for 5 batches (comprising of 35-40 participants) simultaneously and in year about 15 such batches can be trained.

States should budget up to Rs 30,000/- per person for travel, accommodation and food inter alia for 3 days onsite component of training. This expenditure can be booked under FMR code 9.5.19.3 (Training for universal screening for NCDs) under NPCDCS under Flexible Pool for Non-Communicable Diseases (NCD).

The schedule and curriculum of the course are enclosed. States/ UTs are requested to nominate Medical Officers and use this course for their capacity building. Nominations can be sent to Dr. Roopa Hariprasad, Scientist- D, Division of Clinical Oncology, NICPR, at roopaicmr@gmail.com.

With regards,

Encl: a/a

Yours sincerely,

(Manoj Jhalani)

Additional Chief Secretary /Principal Secretary/ Secretary,
Department of Health & Family Welfare,
(All States/UTs).
